

DO NO LESS THAN CHANGE THE WORLD

The World Needs You, Not Someone Like You.

"I am equipped to go out into the work force and succeed in what the Lord has called me to."

Jessup's Adult Degree Completion (ADC) coursework is designed to help you achieve your academic and career goals. Learn from experienced practitioners who create networking opportunities with colleagues and professionals in your area of interest. Earn a degree built on high academic standards in a learning environment that integrates biblical principles with a relevant, rewarding degree program.

Whether you're returning to college, transferring to complete your major, or starting college classes for the first time, we have a degree completion course to meet your needs. Classes meet in the evenings (PST time zone) in a 100% remote learning environment, where you'll study from the comfort of your home and participate in a live virtual classroom alongside your program's cohort and professors. In as little as 19 months, you could earn a bachelor's degree that accelerates your career opportunities, increases financial security, and enables you to achieve life goals while growing personally, professionally, and spiritually.

DEGREE IN AS LITTLE AS 19
MONTHS

100% REMOTE LEARNING
